

REPTM

REPEAT • EVOLVE • PROGRESS

CONTENTS

Everything needed to make REP look and sound like REP, from a chest mark to a gym wall.

In a hurry? Page 22 is the one-page summary.

01	BRAND IDEA & VOICE	03 – 04

06	PHOTOGRAPHY	17
07	APPLICATIONS	18 – 21
08	QUICK REFERENCE	22

REPEAT. EVOLVE. PROGRESS.

REP · NOUN

One complete movement of an exercise. The smallest unit of training, and the smallest unit of progress.

REP is a modern fitness brand built on repetition as the engine of progress. The name is literal, and the line turns it into a philosophy: repeat the work, evolve through it, progress over time.

01**REPEAT**

Show up again. Progress is built from ordinary sessions done often.

02**EVOLVE**

Adjust, learn and get stronger. The work changes you.

03**PROGRESS**

Make it visible. Numbers, streaks and small wins add up.

SHORT. DIRECT. MOTIVATING.

We sound like a good coach: clear, calm under effort, and on your side.

- 1 **Lead with the action.** Verbs first, one idea per line.
- 2 **Motivate without shouting.** No shaming, no aggression, no exclusion.
- 3 **Make progress countable.** Use numbers: days, sets, reps.

NOT REP

No excuses. Get it done.

REP

SHOW UP. REPEAT.

NOT REP

Burn fat fast with our extreme plan!

REP

**SMALL REPS. BIG
CHANGES.**

NOT REP

Beast mode activated.

REP

DAY 12. REP ONE.

THE SIGNATURES.

Primary wordmark

The default. The slanted REP letterforms with the TM, in charcoal on light backgrounds.

With tagline

Adds Repeat · Evolve · Progress. For posters, signage and campaign layouts with room to spare.

Symbol

The REP letters cut into blocks. A supporting mark for compact and repeated uses.

WHICH FILE, WHEN.

FILE	PREVIEW	COLOUR	USE
REPMLOGO.svg		Charcoal #272620 · with TM	Default logo on light backgrounds.
REPMLOGOLB.svg		Stone #B0A69B · with TM	Quiet version on black or dark photography.
REPMLOGOLBN.svg		Stone #B0A69B · no TM	Small sizes and apparel details on dark.
REPMLOGON.svg		Black #000000 · no TM	One-colour print, embroidery, on lime.
REPMLOGOslogan.svg		Black #000000 · tagline	Posters, signage, campaign sign-offs.
REPMLOGOsloganLB.svg		Stone #B0A69B · tagline	Tagline version on dark backgrounds.
REPSYMBOL.svg		Black #000000	Symbol on light backgrounds and one-colour uses.
REPSYMBOLY.svg		Lime-yellow #DBF969	Symbol on dark. Re-export in brand lime (see note).

The symbol file REPSYMBOLY.svg uses #DBF969, which is not the brand lime #D8FF32. This book shows the symbol in #D8FF32: re-export the file in the brand colour. The "black" files are pure #000000, slightly darker than REP Black #111111.

GIVE IT ROOM.

x = one quarter of the wordmark height. Keep at least x free on every side. No text, edges or graphics inside the zone.

With tagline

x = one quarter of the full lockup height

Minimum size

Wordmark

Print 20 mm · Digital 80 px

REPTM

With tagline

Print 40 mm · Digital 200 px

REPTM
REPEAT · EVOLVE · PROGRESS

Symbol

Print 8 mm · Digital 24 px

REP

Below the minimum, drop the tagline first, then use the wordmark without TM. The tagline is unreadable below 40 mm.

APPROVED COLOURWAYS.

Charcoal on off-white
REPLOGO · default

Black on lime
REPLOGON

Off-white on black
Recolour of REPLOGON

Stone on black
REPLOGLB

Lime on black
Recolour of REPLOGON

Tagline, black on lime
REPLOGOslogan

The logo is always **one flat colour** on a solid field. Dark marks go on light or lime; light marks go on black. Lime marks only appear on black.

KEEP REP INTACT.

Do not stretch or squash

Do not rotate

Do not recolour outside the palette

Do not retype or redraw the wordmark

Do not add shadows or outlines

Do not use low-contrast pairings

THE SYMBOL.

The REP letters sliced into blocks. It works alone where the name is already known.

AVATAR

APP ICON

LABEL

STICKER

Not instead of the name. For a first introduction, signage and ads, use the wordmark. Do not redraw, rotate or separate the blocks. Minimum 8 mm / 24 px.

THE PALETTE.

REP LIME

Accent · progress, CTAs, key numbers

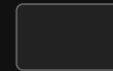

PANTONE CHIP

HEX #D8FF32
 RGB 216 · 255 · 50
 CMYK 23 · 0 · 91 · 0
 PANTONE 387 C (also 388 C · 389 C)
 MATCH APPROX. ΔE 6.8. No solid match: proof neon spot

REP BLACK

Base · backgrounds, type

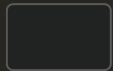

PANTONE CHIP

HEX #111111
 RGB 17 · 17 · 17
 CMYK 82 · 77 · 60 · 94
 PANTONE Neutral Black C
 MATCH NEAR ΔE 5.2. Pantone is slightly lighter

CHARCOAL

Logo on light · REPLOGO

PANTONE CHIP

HEX #272620
 RGB 39 · 38 · 32
 CMYK 67 · 62 · 69 · 77
 PANTONE 419 C
 MATCH CLOSE ΔE 3.6

OFF-WHITE

Light background

HEX #F1FEF8
 RGB 241 · 239 · 232
 CMYK 7 · 5 · 10 · 0
 PANTONE No solid match
 MATCH PAPER Print as paper colour or tint

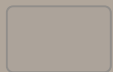

WHITE

Clean surfaces, UI

HEX #FFFFFF
 RGB 255 · 255 · 255
 CMYK 0 · 0 · 0 · 0
 PANTONE Paper white
 MATCH EXACT No ink

STONE

Supporting · REPLOGLB

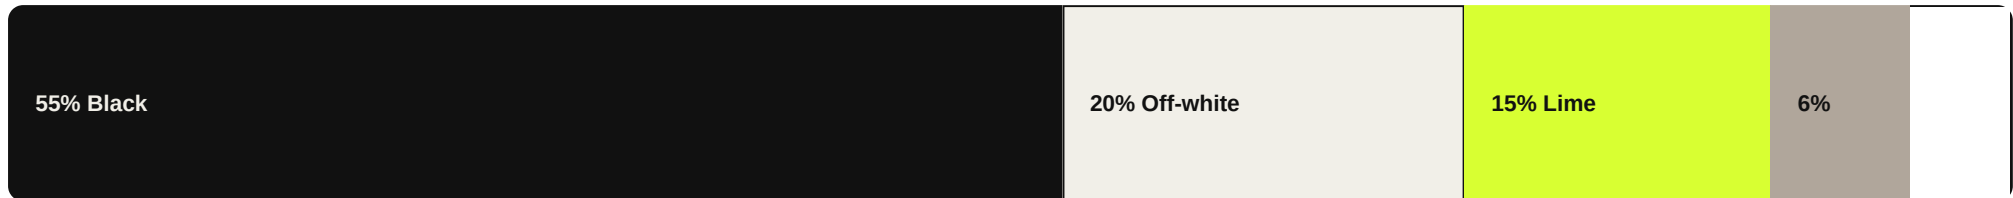

PANTONE CHIP

HEX #B0A69B
 RGB 176 · 166 · 155
 CMYK 33 · 30 · 36 · 7
 PANTONE Warm Gray 5 C
 MATCH CLOSE ΔE 1.3

HEX, RGB and Stone/Charcoal come from the supplied logo files and the original brand colours. CMYK is converted from RGB with the FOGRA39 coated profile (relative colorimetric). Pantone matches are the nearest Solid Coated colours by CIEDE2000 (ΔE: below 2 excellent, 2 to 5 close, above 5 visible). Always check against a physical Pantone book.

COLOUR IN USE.

Black does the heavy lifting. Lime is the spark: use it where something moves forward, such as progress states, calls to action and one key number.

Rough proportion, not a rule. Stone and charcoal are supporting colours.

Legibility: what each pairing can do

Aa Lime on black 16.4 : 1 Any text	Aa Black on lime 16.4 : 1 Any text	Aa Off-white on black 16.4 : 1 Any text	Aa Stone on black 7.9 : 1 Any text
Aa Black on off-white 16.4 : 1 Any text	Aa Lime on off-white 1.0 : 1 Never use for text	Aa Stone on off-white 2.1 : 1 Never use for text	Aa Stone on lime 2.1 : 1 Never use for text

Contrast ratio per WCAG 2.x: body text needs 4.5 : 1, large text (24 px, or 19 px bold) needs 3 : 1. Lime on off-white is 1.0 : 1, so lime never carries text on light backgrounds.

COLOUR IN PRODUCTION.

The lime problem

On screen
#D8FF32

In CMYK print
≈ #D8DA25 · 23 · 0 · 91 · 0

REP Lime is brighter than the CMYK gamut: process print turns it noticeably duller (ΔE 9.5). For anything where the lime is the brand, print it as a spot or neon ink.

Black recipes

Brand match: C82 M77 Y60 K94 (313% ink).

Large solids, safer: C60 M40 Y40 K100 (240%).

Small text: K100 only.

PROCESS	LIME	BLACK	NOTE
Screen and app	#D8FF32 · RGB 216 255 50	#111111 · RGB 17 17 17	Use sRGB values. Do not convert to CMYK first.
Offset, process CMYK	23 · 0 · 91 · 0 (duller)	82 · 77 · 60 · 94	Fine for leaflets. Lime loses its glow. Ask for a contract proof.
Offset or flexo, spot	Neon spot (try 809 C) or 387 C	Neutral Black C	Best for packaging and cards. Approve a drawdown.
Screen print · DTF	Ink mixed to #D8FF32, neon if possible	Plastisol black	Use spot inks. Request a strike-off on the real garment.
Embroidery	Ask supplier for nearest lime	Black thread	Stitched lime shifts darker. Choose thread in daylight.
Signage and vinyl	Neon vinyl or paint match	Gloss or matt black	Match to a physical sample, not to the screen.

Pantone 809 C (Pastels & Neons Coated) is a suggestion to proof: a neon yellow-green, not a verified match. Confirm with your printer.

TWO VOICES.

DISPLAY · HEAVY CONDENSED

REP 0123

Recommended: **Anton** (free, SIL OFL). Alternatives: Bebas Neue, Oswald Bold. For headlines, numbers and statements only.

SECONDARY · INTER

Aa 0123

Regular · Medium · SemiBold · Bold. Body copy, captions, UI and membership information.

Headline

Display · caps · leading 90%

REPEAT THE WORK.

Key number

Display · tabular · lime on black

12 / 12

Subhead

Inter Bold · 14 / 18 pt

Small reps. Big changes.

Body

Inter Regular · 10 / 15 pt

Consistency creates results. Short, direct copy that respects the reader.

Label

Inter Bold · caps · tracking +14%

MEMBERSHIP · WEEK 04

About this PDF. Anton and Inter were not installed when it was produced, so display type is set in a similar heavy sans narrowed to match. Install the fonts for final artwork. Confirm Anton against the campaign lettering before final artwork.

REPEAT EVOLVE PROGRESS

- ① Headline: display, caps
- ② Key word or number in lime
- ③ Body: Inter Regular
- ④ Label: Inter Bold, caps, wide tracking

EXAMPLE · WEEKLY SUMMARY

04 / 05
SESSIONS DONE

One more session and the week is complete. You have repeated the work four times in a row.

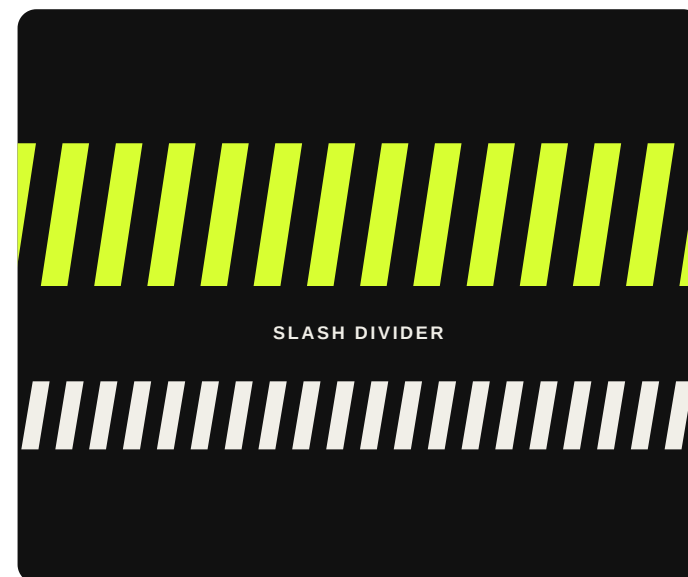

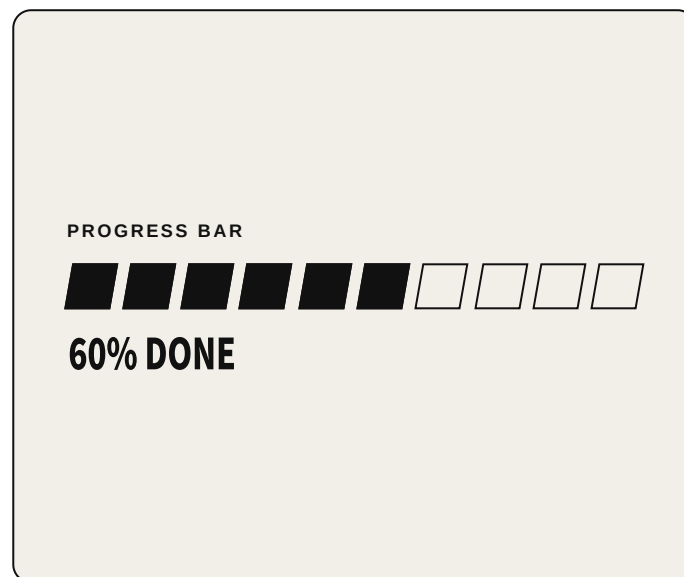

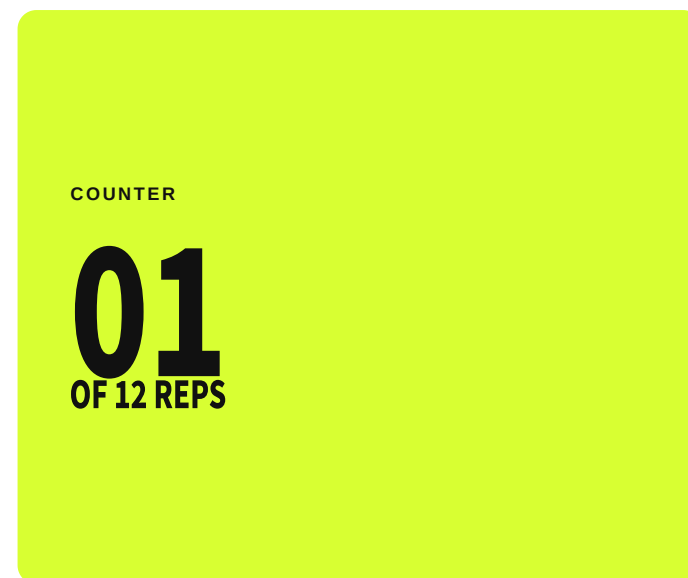

Sample data to show hierarchy.

SLANT. SLAB. COUNT.

The logo leans forward at about 10 degrees. Every graphic device borrows that angle, so the brand always feels like it is moving.

- Flat colour, sharp edges.
- One device per layout.
- Always skew by the same angle.

EFFORT. NOT POSES.

Real athletes mid-effort: sweat, grip, breath and concentration. Show the work, not the physique.

Light

Hard, directional gym light. Deep blacks, warm skin. No flat flash.

People

All bodies, ages and levels. Athlete-led, never objectified.

Frame

Close and cropped. Hands, grip, equipment, faces. Leave room for a headline.

Colour

Lime comes only from brand graphics, never from the photo itself.

Avoid: staged bodybuilder poses, unsafe form, before/after shaming, stock-gym smiles, heavy filters.

PLACEHOLDER IMAGE · REPLACE WITH REAL SHOOT

REPEAT
EVOLVE
PROGRESS

APPAREL.

Tank · front

Small chest wordmark, off-white

Tee · back, lime

Large statement in black

Tee · back, black

Statement in lime and off-white

Cap

Lime wordmark, no TM

Rule of thumb: a small mark on the chest, a big message on the back. Use the no-TM wordmark below 25 mm.

Placement guide

80 MM

Chest wordmark

Left chest, on the pocket line. No TM below 25 mm.

280 MM

Back statement

Three lines, one key word in lime or white.

35 MM

Symbol detail

Hem, sleeve or hood. One per garment.

60 MM

Cap front

Wordmark without TM, embroidered.

GYM AND GEAR.

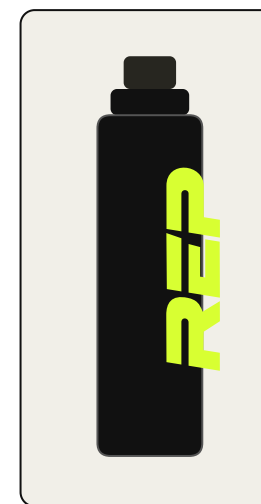

Wall statement

Oversized tone-on-tone wordmark, training statement

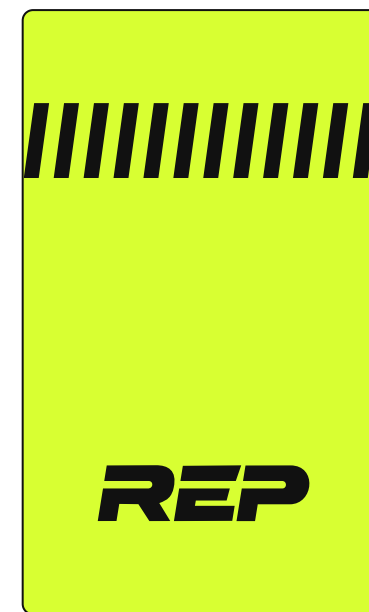

Zone sign

Counter numerals, lime slash

Bottle

Vertical wordmark

Towel

Lime, black wordmark

Go big

Oversized wordmark, tone-on-tone (#1E1E1E on black), cropped by the wall edge.

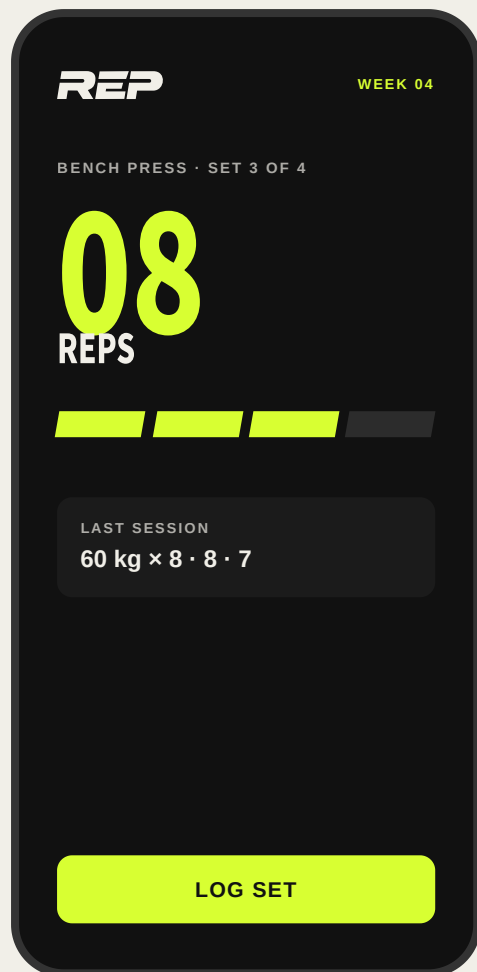

Say one thing

Training statements: two lines, four words each at most, key line in lime.

Count everything

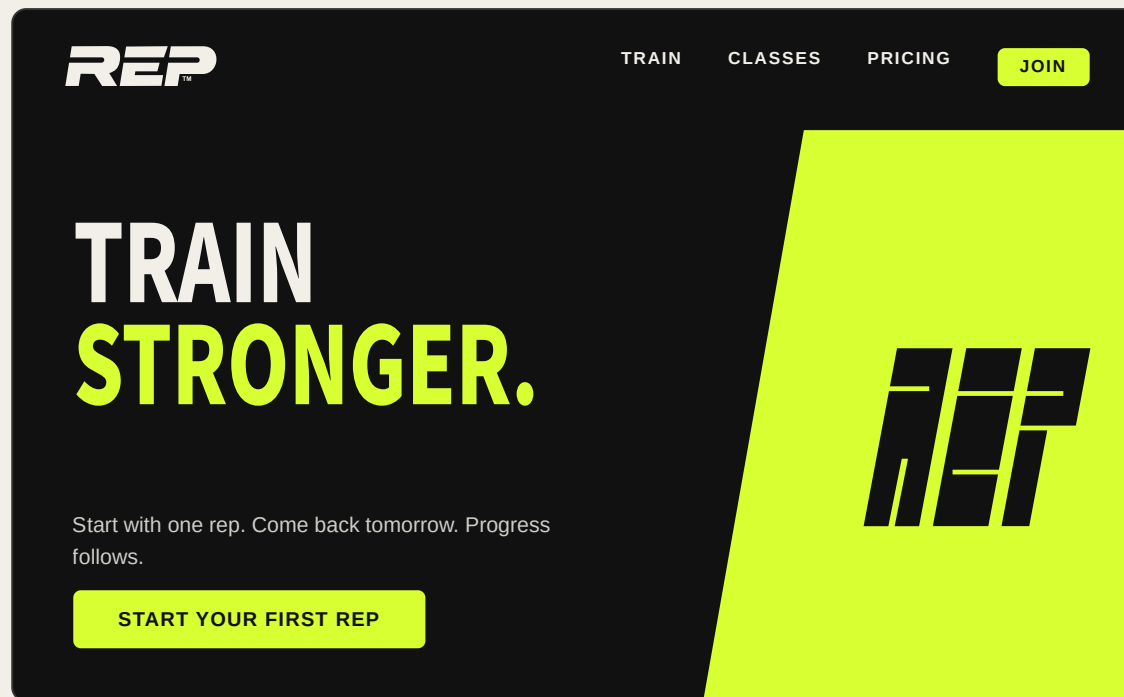

Zones, lockers and stations use big display numerals and a lime slash as the divider.

DIGITAL.

App

Black UI, lime for progress and actions

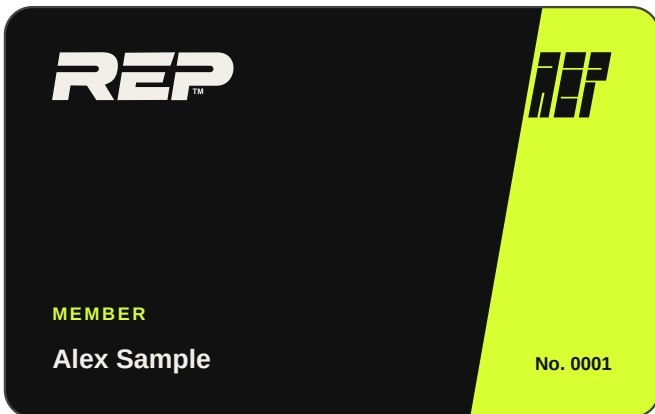

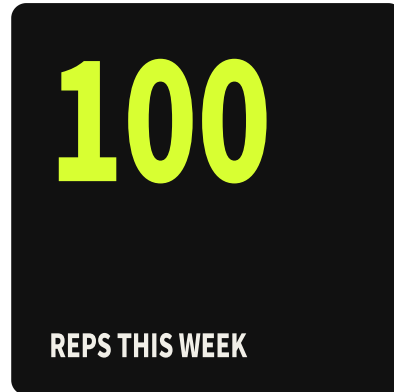

Website hero

One lime block, one lime call to action

- 1 Black interface, off-white text, lime only for progress and primary actions.
- 2 Numbers first: big display numerals, small labels.

SOCIAL AND MEMBERSHIP.

Membership card

Black card, lime slash, symbol

Social rules

- 1 One statement per post, set in display type.
- 2 Athlete photography with a dark scrim; lime only on the key word.
- 3 Logo in a corner, never covering the subject.

Mock-ups use a placeholder image.

QUICK REFERENCE.

LOGO	Charcoal wordmark on light, black on lime, off-white or lime on black. Min. 20 mm / 80 px.
CLEAR SPACE	x = one quarter of the wordmark height, on every side.
COLOUR	Black #111111 · Lime #D8FF32 · Off-white #F1EFE8 · Stone #B0A69B. Lime is the accent.
PRINT	Lime glows only as a spot or neon ink. Always proof.
TYPE	Display for statements and numbers, Inter for everything else.
VOICE	Short, direct, motivating. Make progress countable.
SLANT	Graphic devices lean at the same 10° as the logo.

REPEAT · EVOLVE · PROGRESS
